

PENDA SCIENCE TEACHER QUICK START GUIDE

Level 1 Teacher PD:
Launching the All-New Penda Science

1

ACCESS
YOUR
TEACHER
ACCOUNT

- Find and click on the Penda Learning tile in ClassLink or Clever.
- Or, go to pendalearning.com, click *Login*, then click *Teacher*.

- Account ID (if requested): Usually your district or school name
- Username: Typically your school email address (Ex: first.last@school.net)
- Password: Typically your school email address (Ex: first.last@school.net)
- You will usually use all lowercase letters to log in the first time.

- Click the profile icon in the top right, and click *Settings*.
 - To the left under *Settings*, click *Password*.
 - Change your password to something secure - we recommend a combination of letters, numbers, and symbols.
- You now have access to your all-new teacher account!

Confirm login details with your Implementation Specialist or contact support@pendalearning.com

- Click *Assignments* on the left navigation bar, then click *New Assignment*.
 - 1 - Name: Give the assignment a name, and select a start date and time (or schedule it immediately). Click *Continue*.
 - 2 - Students: Select the class(es), group(s), or student(s) to receive the assignment, then click *Continue*.
 - 3 - Activities: Search for activities by standard, or by grade level and body of knowledge. Select the activities to assign, and if desired, change the order of the activities and leave the *Require Mastery* option on (or turn off), then click *Continue*.
 - 4 - Confirmation: Review your assignment selections. Click the *Back* button at the bottom to make changes. Confirm your choices, then click *Finish*.

2

FIND
AND
ASSIGN
ACTIVITIES

3

CREATE
AND USE
INTERVENTION
GROUPS

- Click *Groups* on the left navigation bar, then *New Group*.
 - Name the group in a way that indicates the purpose of the group.
 - Select the students for the group and click *Create*.
 - Review your selections. If needed, click *Cancel* to start over. Click *Confirm* when done.
 - Repeat for additional groups as needed.
- Follow the instructions above for assigning activities.
 - Select the group you created, instead of a class, to differentiate instruction.
 - Confirm your choices, then click *Finish*.
